Setting the Record Straight: What We Actually Do at the BSF Farming Business Ideas Network

Since launching my Information Brokerage service on September 25, 2020, my mission has always been clear: to provide a value-adding, educational support service for farmers.

I started this journey after receiving endless requests from Farm CEOs in my inner circle and beyond. They all wanted to know the same things: How do I buy quality BSF eggs, larvae, or pupae to start my own production? How do I find a competent expert to build a sustainable system?

Too many of these farmers were completely in the dark, making them easy targets for unscrupulous online "experts" looking to fleece them. To protect them and fill this knowledge gap, I created The BSF Farming Business Ideas Network—a curated, members-only resource hub hosted on my website at discovercotonou.com/bsf-farming-ideas/.

> **Lately, it seems certain misinformed groups have convinced themselves that I am posing as a Black Soldier Fly producer. Let me clear the air once and for all: I have NEVER claimed to be a BSF producer. I have absolutely no need to.**

What We Actually Offer: A Trusted Bridge to Real Experts

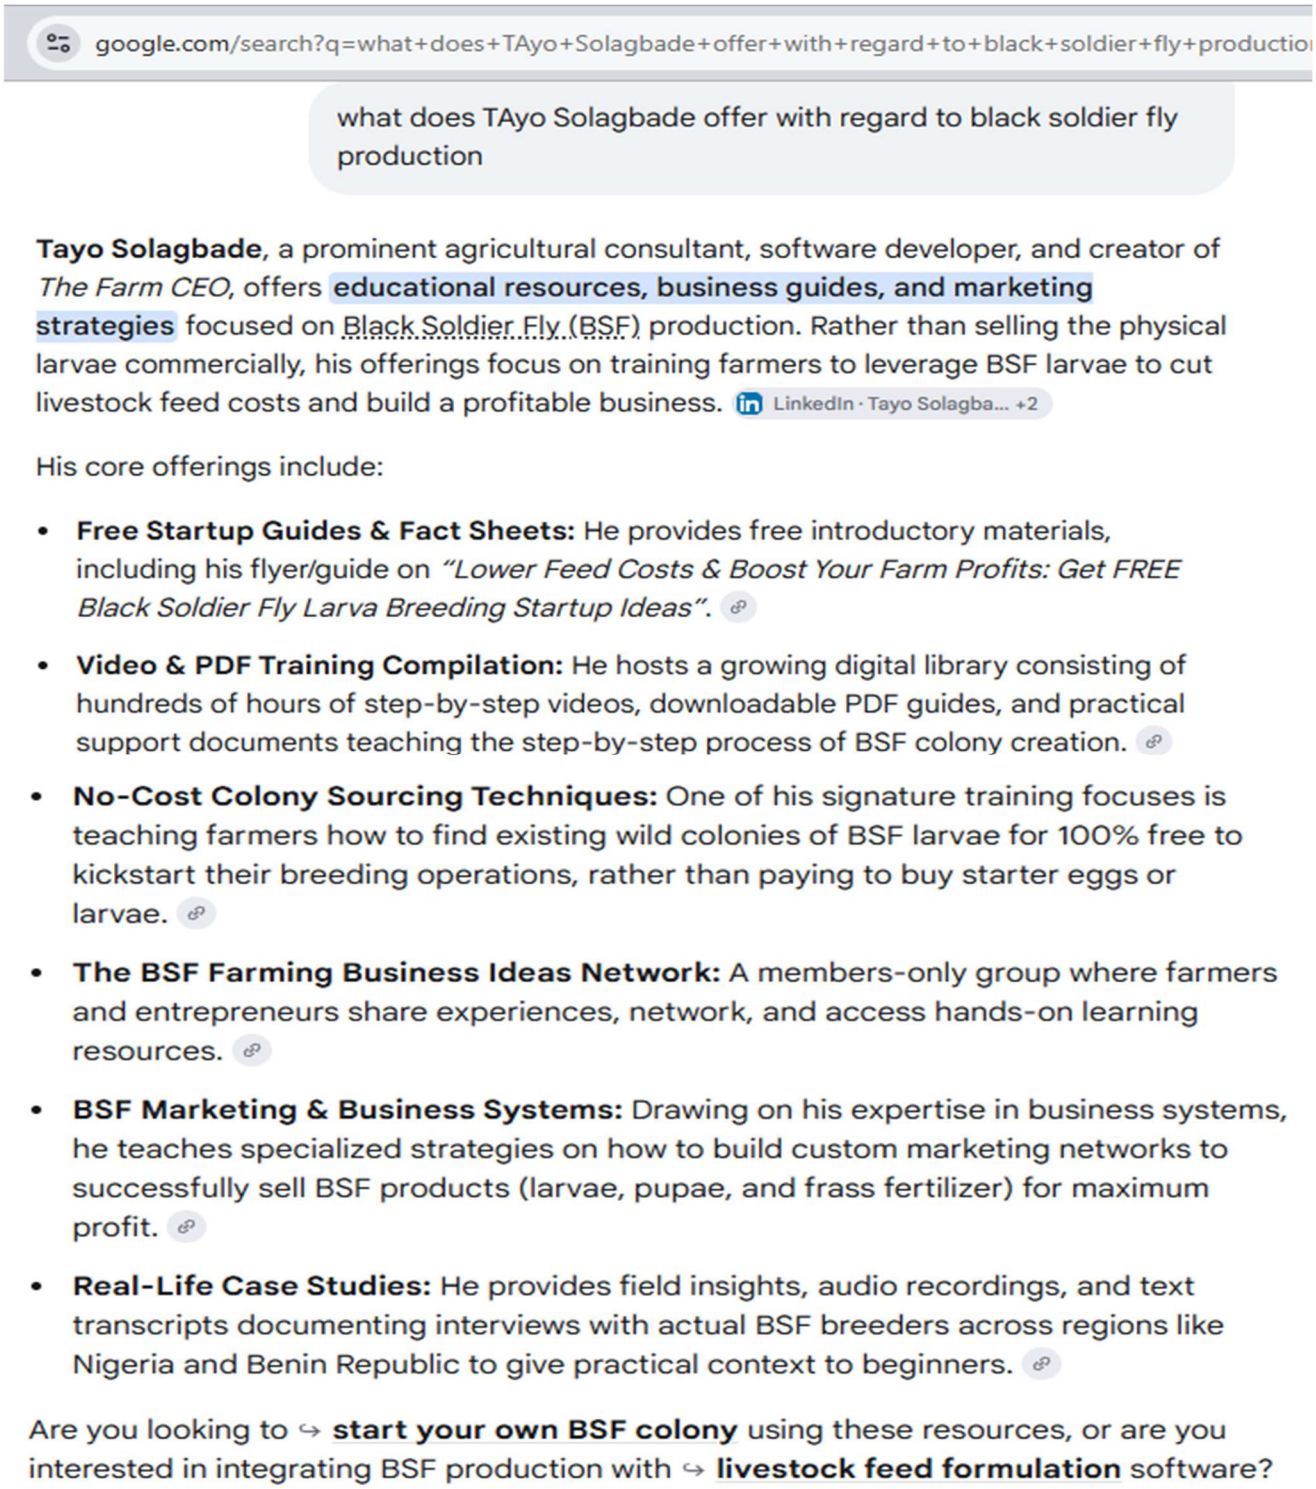

What I offer is a support and information service. I research, screen, and compile factual details about real, competent BSF experts, listing them in an online directory to save our members time, effort, and money.

- **Exposing Farmers to New Opportunities:** Many farmers and agriculture professionals first discovered BSF farming through my newsletter broadcasts.
- **Fostering Real Success:** By linking members with the verified experts in my network, several of them have taken their agricultural businesses to a whole new level.
- **An Unblemished Track Record:** Since 2020, no one has ever been cheated, and not a single member has complained about receiving less value than promised.

Moving Forward: A New Chapter

To those sending cryptic inquiries to me or to my new partner—Fausat Sanni-Yusuf, CEO of Royal Siblings Ventures Limited, to whom I am currently transferring ownership of the entire BSF Directory—you can give it a rest. There is nothing sinister happening here. If you are trying to "test" us with dummy inquiries to see if we are real, you are wasting your time. ***A quick search on what I offer regarding Black Soldier Fly production should yield similar results t those below:***

Your Next Steps: Join Us or Move On

- **Join our network:** Get instant access to a growing library of educational resources and get connected to screened, reasonably authentic experts. Please note: While I do the background research, I cannot guarantee third-party outcomes; you must always do your own due diligence.
- **Don't join:** If our model doesn't align with what you need, that is completely fine. You are under no obligation to join, and you are welcome to explore other platforms that better suit your goals.
